55UP Home and Contents Insurance
Your Guide to Premium, Excesses, Discounts and Claim Payments
Your Guide to Premiums, Excesses, Discounts and Claim Payments

The purpose of this guide is to provide further detail about the amount you pay for this insurance and the excesses that may apply if you make a claim. It also includes information about how we calculate and pay claims under your policy. This guide is taken to be part of the Resilium 55UP Home and Contents Insurance Product Disclosure Statement (PDS) dated 25 June 2010. Words defined in the PDS have the same meaning in this Guide.

This guide applies to policies with a start date or renewal date on or after 1 July 2013.

About your premium

The premium is the amount you pay us for your insurance. It reflects what we consider is the likelihood of you making a claim together with other factors related to our cost of doing business. Your premium does not include any administration fee charged to you by your insurance intermediary.

You also pay stamp duty, GST, any government charges and fire services levy (FSL) that applies. These charges are applied as the final step in the premium calculation. Your certificate of insurance will show how much you have to pay.

When we calculate your premium there are a range of factors we take into account, we call these premium factors. The key factors that affect your premium are the type of covers and optional covers you choose and any discounts you are eligible for, together with any government charges. For example, selecting both home and contents cover will attract a higher premium than selecting only home or contents cover.

The amount of premium that you pay will also depend on information that you give us particularly the information you give us about your home and contents and the decisions you make in relation to your policy such as your choice of basic excess.

It is very important that all the information you give us is accurate and precise. For instance, the address for your home and contents has a significant impact on your premium. If you live in a unit this would mean giving us the exact unit number and street number of the unit building. If you do not give us this information it could have a significant impact on your premium, so it is important that you ensure the information you give us is accurate and precise.

Each year when we calculate your premium we may take into account some or all of the premium factors. The importance we place on the factors we use can change from year to year and how those factors combine to affect your premium will differ from person to person depending on the home or contents to be insured. The factors we use can also change depending on the type of cover you select.

Significant factors affecting your premium include a combination of some or all of the following:

**Premium factor**

- Address and locality of the home and/or contents
- Sum insured
- Construction material of the home
- Age of the home
- Type of security
- How the home is occupied
- Your age
- Optional covers
- Level of basic excess
- Payment frequency
Each time you renew your insurance your premium is likely to change. In addition to any change to the premium factors we use, premiums are also affected by other things including:

- the cost of claims we have paid to other customers and claims we expect to pay in the future
- new and updated data we use to calculate your premium
- changes in our approach to calculating your premium
- automatic adjustments to the sum insured
- our expenses of doing business
- changes in government taxes and any state or territory levies and
- other commercial factors.

When determining your renewal premium, we also consider how much you paid last year. As such, we may limit any movements up or down to your premium to avoid large changes in premiums year on year.

**Premium discounts**

In addition to the premium factors, the discounts you qualify for are also a significant factor affecting your premium. If you qualify for any of our discounts this will attract a lower premium.

These are some of the key discounts we offer:

- Multi-policy discount
- Combined home and contents discount
- Top Strata insurance discount
- Seniors card discount.

At times we may also offer premium discounts to particular customers as part of a promotion or to take account of market conditions.

The amount and type of discounts offered can change or be withdrawn at any time before you take out this policy, or at your next renewal.

The premium shown on your certificate of insurance includes any discounts you qualify for and these are applied before adding government charges. Discounts are not applied to the Domestic Workers Compensation Optional Cover.

Set out below is an example of how we usually apply our discounts when you are eligible for more than one discount:

**Example**

You are eligible for 2 discounts. One is a 10% discount and the other is a 5% discount. We have worked out using the premium factors that your premium before adding government charges is $1,000. The discounts are applied to the premium in the following way.

<table>
<thead>
<tr>
<th>Premium</th>
<th>Discount</th>
<th>Additional details</th>
</tr>
</thead>
<tbody>
<tr>
<td>$1,000</td>
<td>10%</td>
<td>You are entitled to a discount of 10% ($100). Once this is applied it means a new premium of $900.</td>
</tr>
<tr>
<td>$900</td>
<td>5%</td>
<td>Your 5% discount is applied to the $900 premium rather than to the $1,000 base premium. This gives you a discount of $45.</td>
</tr>
<tr>
<td><strong>$855</strong></td>
<td></td>
<td>Discounted premium before government charges have been applied.</td>
</tr>
</tbody>
</table>
Multi-policy discount

A multi-policy discount rewards you with a discount off your premium for holding multiple policies with Resilium. You must have a common named insured and mailing address on each eligible policy in order to qualify for this discount.

If you take out a new policy which means you qualify for the multi-policy discount you get the discount on that new policy immediately and on your other existing policies the discount applies from their next renewal date provided you still qualify.

<table>
<thead>
<tr>
<th>How to qualify</th>
<th>What you save</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hold 3 or more eligible insurance policies with Resilium from the following list:</td>
<td>5% off your eligible insurance premiums</td>
</tr>
</tbody>
</table>

- Home Insurance
- Contents Insurance
- Motor Vehicle Comprehensive
- Motor Vehicle Third Party Property Damage
- Motor Vehicle Fire, Theft & Third Party Property Damage
- Boat Insurance
- Caravan/Trailer Insurance
- NSW CTP Greenslip

1. The NSW CTP Green Slip premium cannot be discounted but it counts towards multi policy discount eligibility.

Combined home and contents discount

We reward you with a **15%** discount for combining your home and its contents on the same policy with us.

Top Strata insurance discount

If you own a home insured by Resilium Top Strata Residential Insurance we reward you with a **15%** discount off your Resilium Contents Insurance for the contents you own in that home.

Seniors card discount

We reward you with a **6%** discount for being a seniors card holder.

Government taxes and charges

Home and Contents insurance policies are subject to stamp duty imposed by state and territory governments, 10% GST and in some states a fire service levy. Government charges are applied as the final step in the premium calculation. These amounts are shown on your certificate of insurance.
About your excess

What is an excess

An excess is the amount you have to pay for each incident when you make a claim. We will deduct the excess from the amount of cover provided by your policy. The amount and types of excess are shown on your certificate of insurance. The different types of excess are:

Basic excess

A basic excess of $300 applies to all home and contents claims, except for portable or optional cover claims. You can choose to increase or decrease your basic excess within the range we offer.

The usual range of basic excess levels that you can choose is between $0 and $5,000.

Earthquake and tsunami excess

When loss or damage is caused by an earthquake or tsunami, an excess of $300 will apply in addition to any other excess that applies.

Optional cover excess

The excess that applies for a claim made under the Motor burnout or Injury to pet dogs and cats’ option depends on your choice of basic excess. The most excess you will pay for these optional covers is $100.

For our other optional covers the amount of the optional cover excess is the same as the basic excess.

Portable cover excess

The excess that applies for a claim made under Portable cover depends on your choice of basic excess. The most excess you will pay for this cover is $100.

Additional excess

We may impose an additional excess that applies on top of any other excess. This excess may be imposed for a range of reasons including for example:

- where we consider you have made more claims than usual, or
- if the home has been unoccupied for more than 90 consecutive days, or
- if the home is located on certain islands off the Australian mainland.

When more than one excess applies

Depending on the circumstances, you might have to pay more than one type of excess when you claim.
Claim payments

The following examples are designed to illustrate how a claim payment might typically be calculated. The examples do not cover all scenarios or all benefits and do not form part of your policy terms and conditions. They are a guide only. In each of the examples we assume that you are not registered for GST.

Example 1 – Total loss home claim

Your home has a sum insured of $380,000. Your basic excess is $500.

Your city has been hit by a major cyclone and your home was one of many that were destroyed during the event. The scale of the event has caused an immediate surge in demand for building materials and tradespersons resulting in higher rebuilding costs.

The cost to rebuild the home now is $440,000. To remove debris and clear the site will cost an extra $40,000.

At the time of the loss you are 6 months into the period of insurance.

### Adjustment to your home sum insured

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Home sum insured</td>
<td>$380,000</td>
</tr>
</tbody>
</table>

Your sum insured is not enough to cover the cost to rebuild your home. Accordingly we apply a pro-rata adjustment to your home sum insured and if this is still not sufficient we will also apply safety net home protection.

### Pro-rata adjustment

$380,000 x (10% x 6/12) because you are only 6 months into your period of insurance = $19,000

If you make a claim part way through the period of insurance we bring forward the sum insured adjustment that would have applied at your next renewal date. In this example the current annual adjustment is 10%. See PDS on page 30 and 63.

### Adjusted home sum insured

$399,000

As the adjusted home sum insured falls short of the cost to rebuild ($440,000), safety net home protection also applies.

### Safety net home protection

$399,000 x 0.25 = Up to $99,750

Safety net home protection provides up to 25% extra home cover if your adjusted home sum insured falls short of rebuilding costs. See PDS on page 29.

### Adjusted home sum insured + safety net home protection

$399,000 + $41,000 = $440,000

This is now enough cover to rebuild your home.

### How much we pay

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cost to rebuild home</td>
<td>$440,000</td>
</tr>
<tr>
<td>Removal of debris</td>
<td>$40,000</td>
</tr>
</tbody>
</table>

We pay this amount directly to the builder.

The cost to rebuild is paid from the full amount of the adjusted home sum insured of $399,000 plus $41,000 provided under safety net home protection.

Under the removal of debris additional feature we pay up to 15% of your adjusted home sum insured of $399,000.

This amount is paid in addition to the home sum insured.

### Total amount of claim

$480,000

### Less excess

- $500

We deduct this from the total amount of claim.

### Total claim

$479,500
Example 2 – Partial loss – Listed portable cover

You have insured your engagement ring as a listed item under Portable cover. The sum insured for your engagement ring is $10,000. While you were swimming at your local beach your ring slipped off your finger and you are unable to find it.

Your basic excess is $500.

<table>
<thead>
<tr>
<th>How much we pay</th>
<th>Additional information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cost to replace your ring</td>
<td>$8,000</td>
</tr>
<tr>
<td>Less excess</td>
<td>- $100</td>
</tr>
<tr>
<td>Total claim</td>
<td>$7,900</td>
</tr>
</tbody>
</table>

We are able to replace your old ring new for old within your sum insured.

Your portable cover excess is your basic excess or $100 whichever is less. In this case your basic excess is $500 so the lower $100 excess applies.

We pay this amount directly to the jeweller.

As we have replaced your engagement ring this listed item is removed from your policy and there is no premium refunded for the unused period of insurance. If you want to cover the replacement ring then you will need to apply for new cover.

Example 3 – Partial loss – Bundled portable cover

Your digital camera is insured under Bundled portable cover. While bushwalking near your home you accidentally drop the camera and it is damaged. Unfortunately the camera cannot be repaired and needs to be replaced. The cost to replace the digital camera is $1,200.

Your basic excess is $300.

<table>
<thead>
<tr>
<th>How much we pay</th>
<th>Additional information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cost to replace your camera</td>
<td>$1,200</td>
</tr>
<tr>
<td>Limit of cover</td>
<td>$1,000</td>
</tr>
<tr>
<td>Less excess</td>
<td>- $100</td>
</tr>
<tr>
<td>Total claim</td>
<td>$900</td>
</tr>
</tbody>
</table>

The most you can claim under Bundled portable cover for any one item is $1,000.

Your portable cover excess is your basic excess or $100 whichever is less. In this case your basic excess is $300 so the lower $100 excess applies.

As the sum insured is not enough to replace the camera, we pay this amount to you.

Example 4 – Partial loss – Motor burnout option

You choose the Motor burnout option on your home cover.

Your ducted air conditioning unit motor has suddenly stopped working and the repairer’s report confirms that the motor for the unit has fused. The age of the motor in the ducted air conditioning unit is 5 years old.

Your basic excess is $500.

<table>
<thead>
<tr>
<th>How much we pay</th>
<th>Additional information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cost to replace the motor</td>
<td>$800</td>
</tr>
<tr>
<td>Less excess</td>
<td>- $100</td>
</tr>
<tr>
<td>Total claim</td>
<td>$700</td>
</tr>
</tbody>
</table>

Under this option we only cover the cost to either replace or repair the motor in the ducted air-conditioning unit. In this case the motor requires replacement.

Your optional cover excess for the motor burnout option is your basic excess or $100 whichever is less. In this case your basic excess is $500 so the lower $100 excess applies.

We pay this amount to the repairer.
Example 5 – Partial loss home

Your home has a sum insured of $470,000. Your basic excess is $500. A severe storm with gusty winds results in a tree falling onto your roof and damaging it significantly.

We assess that your home is not liveable until repairs are completed and you and your family move into temporary accommodation for 4 weeks while repairs are undertaken.

We assess the repairs to the roof will cost $89,000.

<table>
<thead>
<tr>
<th>How much we pay</th>
<th>Additional information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cost to repair home</td>
<td>$89,000 We pay this amount directly to the builder.</td>
</tr>
<tr>
<td>Temporary accommodation costs</td>
<td>$2,000 We pay temporary accommodation costs up to 10% of your home sum insured. So, the maximum cover under this feature is $47,000. This is paid in addition to the sum insured. We normally reimburse you for these costs.</td>
</tr>
<tr>
<td>Total amount of claim</td>
<td>$91,000</td>
</tr>
<tr>
<td>Less excess</td>
<td>- $500 We deduct this from the total amount of the claim.</td>
</tr>
<tr>
<td>Total claim</td>
<td>$90,500</td>
</tr>
</tbody>
</table>

Example 6 – Legal liability home cover

Your home is insured under your policy.

During a dinner party at your home one of your guests was walking down the stairs, the area was dimly lit causing your guest to slip down the stairs and injure their ankle and lower back.

Your guest has made a claim for their out of pocket expenses and loss of wages for a 6 week period for the amount of $14,800. We assess this claim and agree you are liable for these amounts.

Your basic excess is $500.

<table>
<thead>
<tr>
<th>How much we pay</th>
<th>Additional information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total amount of liability</td>
<td>$14,800 We assess the claim and agree you are liable. We pay this amount to the injured party.</td>
</tr>
<tr>
<td>Less excess</td>
<td>- $500 You pay your basic excess to us before we settle the claim.</td>
</tr>
<tr>
<td>Total claim</td>
<td>$14,300</td>
</tr>
</tbody>
</table>

Example 7 – Legal liability contents cover

You have a contents insurance policy with us. While riding a push bike along the road, your son who lives with you accidentally rode into a parked car causing scratches to the vehicle. The cost to repair the damage to the vehicle is $2,000.

Your basic excess is $500.

<table>
<thead>
<tr>
<th>How much we pay</th>
<th>Additional information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Repair cost to vehicle</td>
<td>$2,000 This amount is paid to the owner of the damaged vehicle.</td>
</tr>
<tr>
<td>Less excess</td>
<td>- $500 You pay your basic excess to us before we settle the claim.</td>
</tr>
<tr>
<td>Total claim</td>
<td>$1,500</td>
</tr>
</tbody>
</table>
